Dear Friends:

Another year we are pleased to welcome you to our Gardens if possible, or by means of this catalog. either will receive our personal attention

1958 Clearance prices  
Early orders receive extra  
gift.

**ADINA (Tuller 1957) M. 48"**

Snowflurry X Mrs. Stella Sted

Tall and serene stands this large flowered self of sparkling white infused with pink. Flowers of good substance are borne on tall strong stalks with fine branching for its many blooms, as many as 8 to 11. Yellow beard adds brightness.

Each ~~\$25.00~~

15<sup>00</sup>

**BLACK PLUME (Tuller 1957) M 34"**

SDLG. 29S R(Deep Velvet X Sable) XStorm King X  
Black Forest.

A lovely deep blue black self of medium height, of excellent form and size. Standards are slightly open, with wide rounded black falls, clean hafts and dark blue beard. Strong stalks, good substandard flowers.

NET Each ~~\$35.00~~

25<sup>00</sup>

**LUANN KAY (Tuller 1957) ML 35"**

Sdlg. Y-1 Carlsbad Caverns X Dolly Walker) X  
Flora Dora X Top Flight.

Bright as a smile is this beautiful laced and crinkled golden orange, apricot self. A darker orange glow shines throughout the center of the flower. Style arms same color and a very heavy red orange beard. Very strong stalks, good grower.

Net each ~~\$35.00~~

25<sup>00</sup>

**REMITTANCE BY CHECK, MONEY ORDER OR DRAFT, PLEASE**

We will pay postage on all orders of \$3.00 or more, under that amount please send 50c for mailing.

Rhizomes are guaranteed to arrive in healthy condition, if not satisfied please notify us at once.

Orders will be filled from early July until late Fall, unless a specified time is indicated on your order.

<sup>15</sup>  
~~12~~ named but unlabeled tall bearded Iris, all different and in assorted colors.  
Just \$3.00

Do not over-fertilize. Bonemeal is always good or use any balanced plant

## IRIS CULTURE

Iris are one of the easiest perennials to grow, requiring very little attention, but invariably responding to any extra attention given them.

Sunny, well drained soil is best for planting. Work the ground loosely to a depth of about 10 inches, spread the roots of the rhizome, and plant just under the surface, tamping the soil down firmly. Water well after planting and remember not to plant deep as Iris like sunlight. In heavy soils, work in a little sand around the plant.

Do not over-fertilize. Bonemeal is always good or use any balanced plant food, sparingly and not next to rhizome. Try to maintain an even balance between the acid and alkaline factors in your soil as, generally speaking, Iris prefer a neutral soil.
